

Sudbury Water District  
Sudbury, Massachusetts 01776  
Request for Proposals (IFB) 21-11

REDEVELOPMENT OF WELL #s 2 AND 8  
CONTRACT

**Notice to All Prospective Bidders**

**ADDENDUM #1, RELEASED November 17, 2020**

Sudbury Water District has issued this addendum for clarification by prospective bidders before the deadline:

1. The Pantonite PM 77 is a proprietary product which makes it difficult for those of us not licensed distributors to price competitively. Would an alternate product such as the NSF 60 Approved NuWell 310 Bioacid Dispersant, a product from Johnson Screen that is available to all Contractors, be considered acceptable for use in place of the Pantonite product?

***Pantonite PM 77 has proved to be the most effective well cleaning product for the Sudbury Water District and is therefore the reasoning for its specification. Pantonite PM 77 is available to all contractors that do this type of work. No alternative product will be accepted.***

The above responses were prepared by or in consultation with:

Vincent Roy, Executive Director

The Sudbury Water District reserves the right to reject any and all bids as determined to be in the best interests of the District and to waive minor informalities.
